$2n + 3$

$4n - 1$

A diagram showing the multiplication of $2n + 3$ and $4n - 1$. Two teal boxes containing $2n + 3$ and $4n - 1$ are connected by blue lines to a yellow circle containing a multiplication sign \times .

$(2n + 3) \times (4n - 1)$

A teal box containing the result of the addition: $2n + 3$. A red arrow points from the addition node above to this box.

A teal box containing the result of the subtraction: $4n - 1$. A red arrow points from the subtraction node above to this box.

A diagram showing the multiplication of the two intermediate results. A teal box containing $2n + 3$ and a teal box containing $4n - 1$ are connected by blue lines to a yellow circle containing a multiplication sign \times . A red arrow points from this multiplication node to the final result box below.

A teal box containing the final result of the expression: $(2n + 3) \times (4n - 1)$.

$$2n \quad 3$$

$$+$$

$$2n + 3$$

$$4n \quad 1$$

$$-$$

$$4n - 1$$

$$\times$$

$$(2n + 3) \times (4n - 1)$$
